

Maternal Magic

Join likeminded farmers looking to get great performance from their ewes.
This isn't just another social farmer group, this is for those wanting to be the best.

Five sessions – 8 group members

In a group of 8 participants, you will meet 5 times throughout the year. Over 12 months you will develop your strategy to allow ewes & lambs to perform at their optimum.
Working on improving yourself as much as improving your enterprise.

Topic will include

- Understanding your carrying capacity and flexibility of your stocking rate
- Setting ewes up for successful and consistent joining results
- More condition scoring and feed assessment
- Parasite management & implementing a real drench strategy
- Taking lamb survival beyond what much of the industry believe is possible.
- Weaning for growth & performance
- High quality feed, the role of fibre and the science behind lamb growth rates
- Planning for success not hoping for it

Participants should expect the highest standard of information and interaction.

Cost is \$1200 + GST per participant
